

Care Groups are Community Groups with a specialized focus. We want to help people Love God, Love One Another and Love the World even as they address specific concerns in their lives. Groups are facilitated by caring church leaders who have specialized training. These groups are peer led, Christ centered, supportive communities. Some group facilitators are people helping professionals, but in their roles as Care Group leaders they are serving as “good Samaritans” and not in their professional role or providing professional counseling.

If you are interested in one of these groups or the ones listed below, please contact our Care Team Assistant- Greta Smith at 440.746.0404 ext. 267, or fill in the registration box on reverse side and mark your interest below and we will contact you.
