

# STUDY GUIDE

## WAR AND PEACE 06.20.21

### [set up]

Take a few moments to describe the home in which you grew up. How has that home affected - positively or negatively - your view of parenting, children, discipline, and how a home is to be led.

### [digging deeper]

Read Ephesians 6:1-4.

- Talk about what it means to "honor" our Father and Mother.
- Share your experience with honoring your parents.
  - What might be 1 or 2 things that you need to change to follow this command to honor your parents? Will you agree to let the other members in your LifeGroup hold you accountable?

If you have children...

- What do discipline and instruction look like in your home?
- If Jesus knocked on the door of your home today, what would you be most concerned that he would find?
- Dads—How are you doing with leading in your home?
- What are 1-2 areas of growth that you are willing to take on and what steps will you take to grow? Are you willing to have the other men in the group hold you accountable?

### [living it out]

This final section of Ephesians is all about action. Paul is calling us to hear the word and DO something about it. Go back over the commitments that were made in group today, have someone write them out, and make a plan for follow-up and accountability.

Close your time praying specifically for one another as they take on the task of growing as children and parents.
